SW590

The **SW590** combines a true **swim area** with an independent **spa zone**, allowing you to swim in cooler water and relax in a hot spa simultaneously in two separate environments.

Equipped with **3 illuminated smooth river swim jets**, it delivers a fluid and natural current ideal for training and continuous movement.

Each zone features its own **control system, heater, pumps, and filtration** for a fully independent experience, even allowing you to winterize the swim area while continuing to enjoy the spa zone.

Personalize Your Experience with the Kit Swim**:

Stationary Swimming with Resistance Kit and Harness

**includes pole with harness, rails and elastic resistance straps.

Your Experience

Designed to take your experience even further, the **Kit Swim** transforms your swim spa into a versatile training environment.

Featuring a **pole with harness, rails, and elastic straps**, it allows you to vary workouts while benefiting from the natural resistance of water.

Whether for strength training, cardio, mobility, or endurance, water provides a smooth and effective workout while reducing impact on the joints.

An ideal solution to train, recover, and stay **active from the comfort of home**.
