

Who we are

Be Well Canada Spa is a North American leader in the manufacturing of premium portable spas, dedicated to creating moments of relaxation and enhancing well-being. Our team of skilled engineers designs each spa to offer the perfect blend of modern aesthetics, advanced technology, and personalized comfort. With a wide variety of models and customizable options, we provide tailored solutions to suit every lifestyle.

Supported by a trusted network of authorized dealers, Be Well ensures exceptional quality, reliable service, and a smooth installation process. Discover the Be Well difference — where innovation meets comfort, and wellness is always within reach.

Be Well Spas Collection

Page 26 - 27

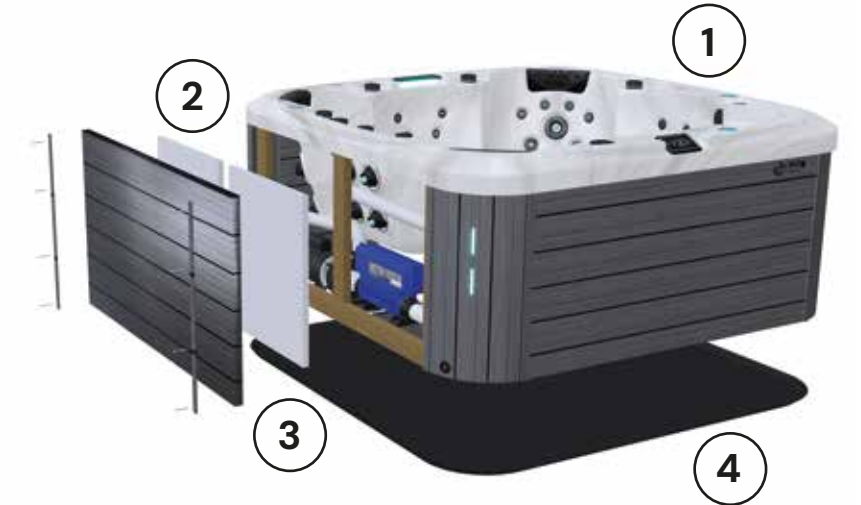

- 1 The Shell**
The shell of our spas is constructed from high-quality, durable acrylic that is both resistant to the elements and capable of withstanding years of use. The multi-layered design ensures a smooth, long-lasting surface that provides a beautiful, resilient finish.

- 2 The Frame**
The frame is built from a autoclave wood that supports the structure of the spa, ensuring strength and durability. It's engineered to provide maximum stability while remaining lightweight for easy installation.

- 3 The Insulation**
We use advanced panel foam insulation to ensure optimal energy efficiency, keeping your spa warm while minimizing energy consumption. This layer helps maintain consistent water temperature, even in the coldest climates.

- 4 The Base**
Our spa bases are designed for strength and stability, built from a high-density ABS that provides solid support for the entire structure. The base ensures that your spa stays level and secure, even in challenging conditions.

Wellness

Discover the wellness benefits of owning a Be Well spa. Soothe muscle tension, boost circulation, and reduce stress with every soak. Relax, reconnect, and embrace a lifestyle of well-being.

Rotating Jet

With their swirling water motion, rotational jets deliver a dynamic massage, ideal for loosening tight muscles and enhancing circulation.

Directional Jet

Adjustable to focus on key areas, these jets allow for a personalized hydrotherapy experience tailored to your specific needs.

Metacarpal Jet

The metacarpal jet uses targeted water pressure to relieve hand and wrist tension and improve circulation.

Jet Sizes

Jets in 2", 3", and 5" sizes offer adjustable intensity and coverage, providing a personalized hydrotherapy experience tailored to your muscle relaxation needs.

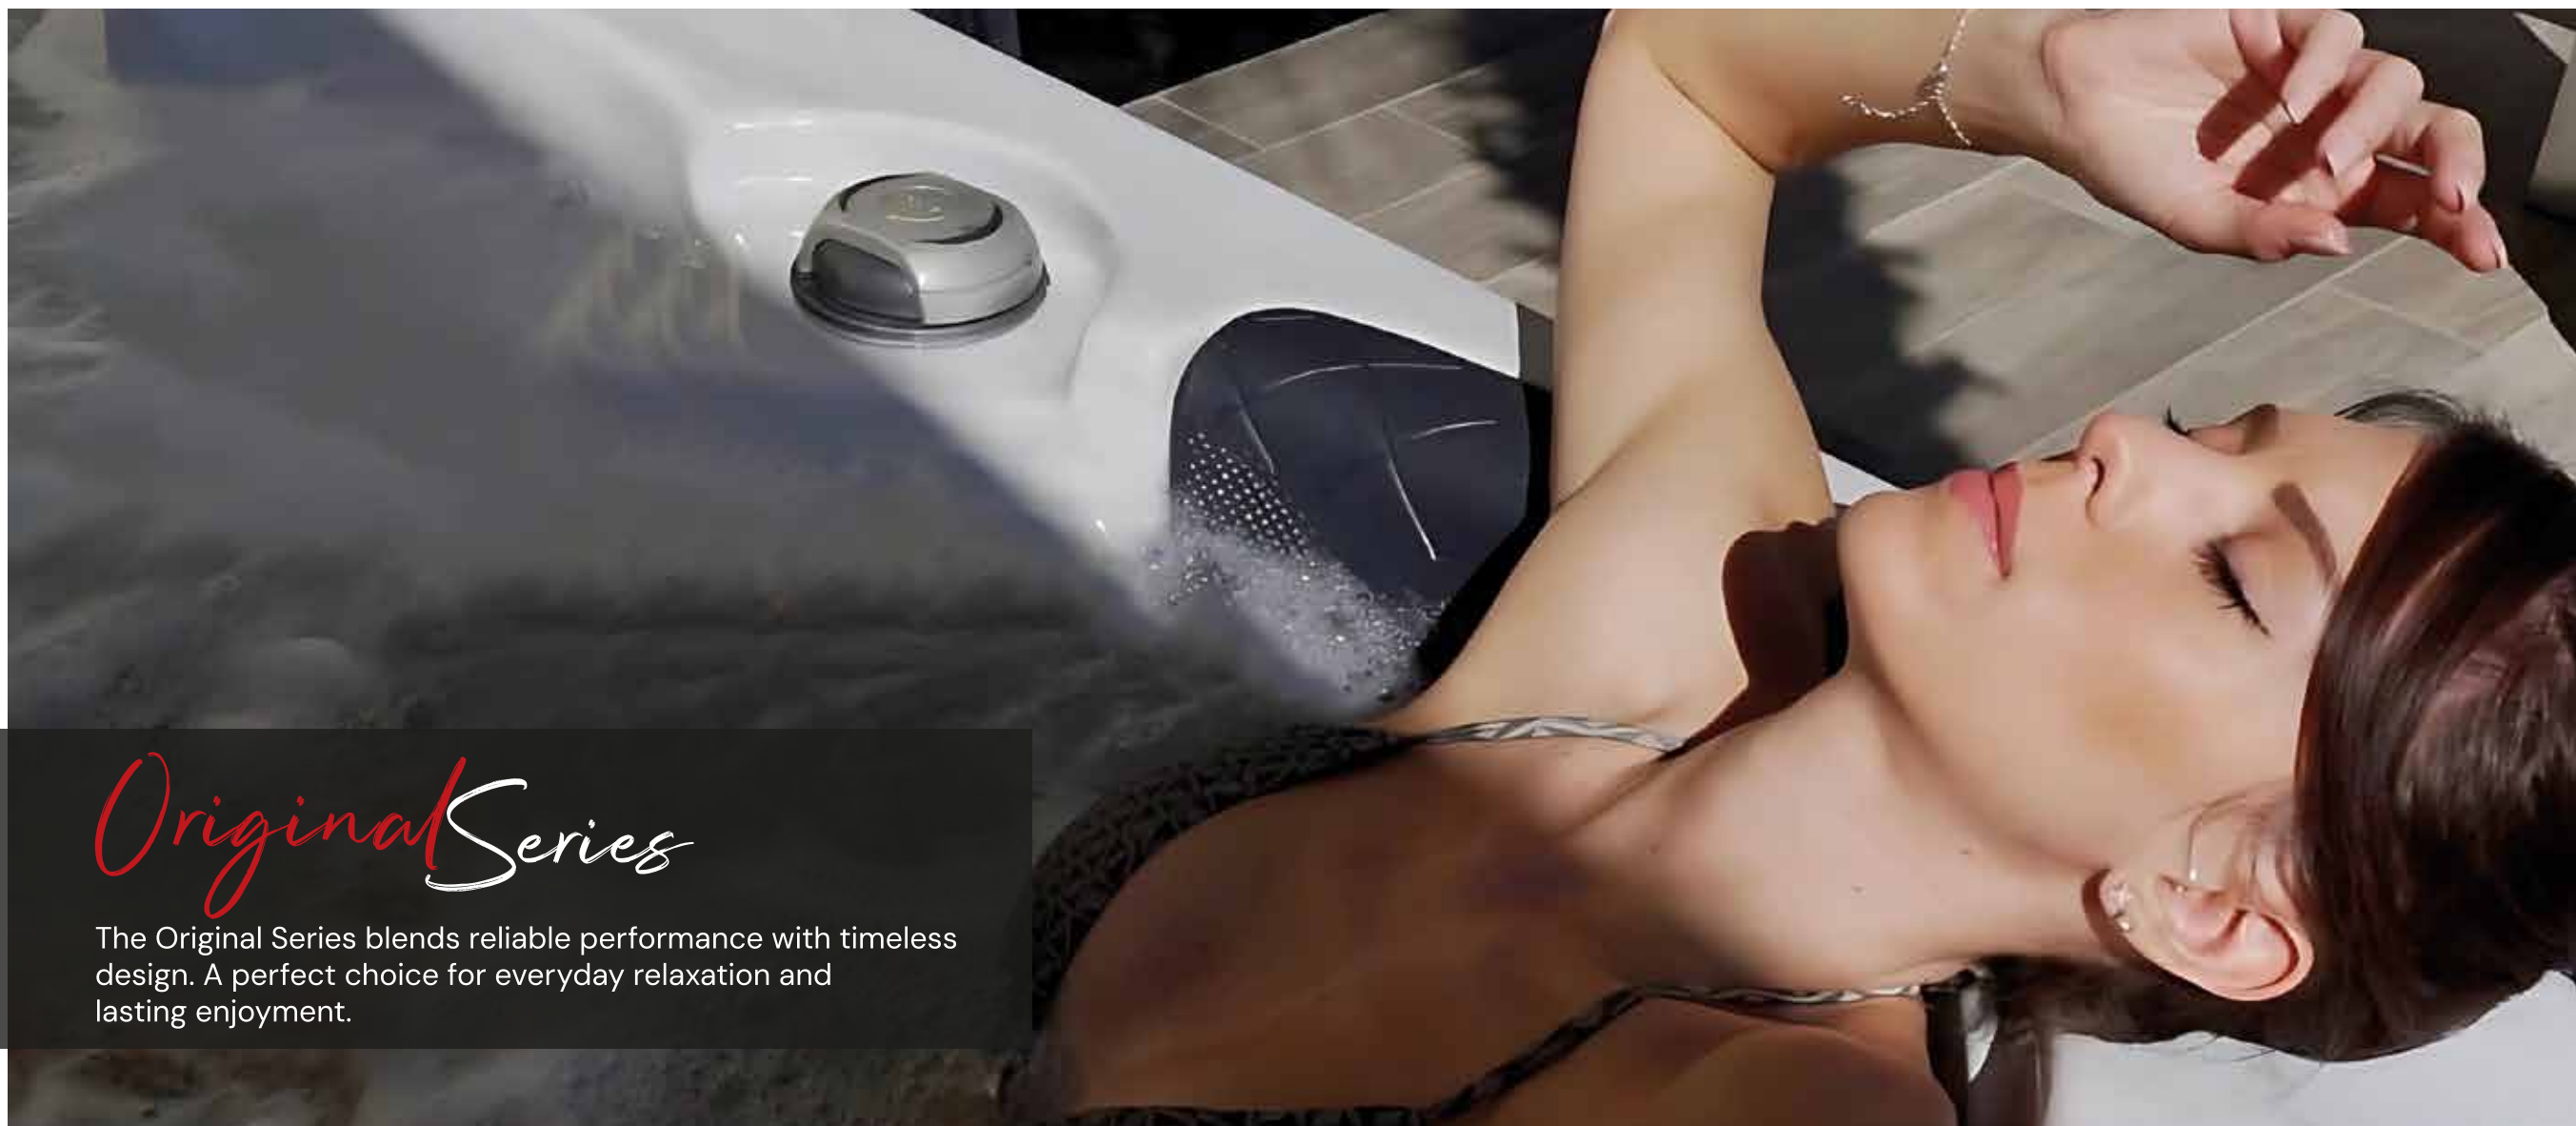

Blower

Designed to increase warm water movement and to provide a soft tumbling air massage. Adding an additional benefit to your hydrotherapy experience.

Volcano Jet

Experience a powerful, soothing massage with the Volcano Jet, designed to provide intense, targeted hydrotherapy to release deep muscle tension.

Original Series

The Original Series blends reliable performance with timeless design. A perfect choice for everyday relaxation and lasting enjoyment.

CREATE YOUR PERFECT EXPERIENCE

At Be Well Canda Spa we offer you the options to personalize and fully customize your new spa. You can design an experience to suit your personal needs and preferences. The spa becomes truly yours, reflecting your unique lifestyle and offering you an exceptional relaxation retreat. With our exclusive options and design amenities we can help you design a truly exceptional Be Well Canada Spa experience.

The **Volcano jet** provides powerful water flow targeting the lower back and legs, creating an energetic massage that combines therapeutic intensity and soothing comfort.

The **Illuminated jets** (3" and 5") deliver targeted massage and a calming ambiance with built-in lighting — adding comfort and elegance to every soak.

The **Bluetooth Audio** system delivers crystal-clear sound with high-performance speakers. The K1000 touchscreen keypad lets you easily manage audio settings with style and simplicity.

The **Wi-Fi** system lets you control your spa remotely, no matter where you are. Easy to install, it offers a connected experience, even when you're away from home.

Create a soothing ambiance with the **LED Waterline**. Customizable colors highlight your spa, adding elegance and comfort for relaxing evening moments.

An **Ozone** system ensures cleaner, healthier water by oxidizing organic matter and breaking down chloramines, enhancing clarity and freshness.

The **K800** keypad offers a high resolution display, fast navigation, and full control of spa functions and accessories combining efficiency with convenience.

The **K1000 touchscreen keypad** offers intuitive control with a vibrant display and powerful processor to adjust temperature, jets, and lighting.

The **UV + Ozone** sanitation system keeps water crystal-clear with minimal chemicals, eliminating microorganisms and contaminants for a safer, cleaner, and eco-friendly spa experience.

In.Clear is a self-cleaning system that keeps your spa watercare by automatically removing contaminants with minimal effort. (US only)
